

Support to reduce any immediate crisis

The Service offers an environment that enables you to access the support, interventions and opportunities that meets your immediate needs and identify a longer term plan.

Working with our team, we will provide you with information, and advice, about other places you can go during the day that may be able to provide support with your individual circumstances.

A friendly and supportive community alternative to traditional crisis services.

We provide support when you are in emotional distress and together we aim to find coping strategies that prevent crisis reoccurring and provide steps towards building the life you want.

About Us

Bluesci at Night are staffed by experienced mental health professionals and suitably trained support staff and volunteers.

We work in partnership with a wide range of services to connect you with ongoing support you may need.

We have one to one spaces so that you can talk with us and we will be serving tea, coffee, and soft drinks, and will provide other resources that will help you practice distraction, or experience some down time.
